

# LEVEL 15 BOSS FIGHT MINUTES

**Date:** Friday, December 16th, 2022

**Time:** 16h20 - 16h50

**Chair:** Nino Gauthier, Guild Leader

## Attending :

- Canon Ayoub : Mage
- Fresco Alan : Healer
- Blot Olivier : Duelist

## Absent :

- Basset Louis : Tank
- Farhat Otman : Swordsman

## Goal of the meeting :

Discuss and decide on strategy and equipment distribution for the next month's boss fight against the Level 15's Boss : the Kobold Lord.

## Items of the meeting :

### 1. Welcome

The chairman presented the agenda for the meeting and notes the two main items to be discussed: strategy and repartition of equipment. Every participant used a code name and the location of the meeting was kept secret to avoid any leaks of information.

### 2. Strategy

Three potential strategies to fight the boss were presented: very offensive, sneaky attack, or step by step attack by killing the henchmen first before focusing on the boss.

The team voted and unanimously decided on the third strategy as it is not possible to surprise the boss because of the presence of a trigger zone that would warn the Kobold Lord of the presence of enemies. Furthermore, a offensive attack would only lead to destruction of the party due to the powerful attacks of the boss and the attacks of the minions which would come from behind.

Alan suggested using defensive members to occupy the boss while offensive members attack its legs to stop it. Olivier confirmed it is possible to protect those in

the offensive group as long as there are no minions. The chairman assigned roles to two other members as a tank and an offensive role with a single longer sword. The team splits into two groups with one focusing on the boss and the other on the minions.

### **3. Repartition of the equipment**

The team discussed the distribution of expensive equipment, which included 3 health potions, an enchanted fairy, the last chance shield, and an enchanted apple.

Olivier and Ayoub suggested giving the last chance shield to defensive members, and Olivier advised giving the enchanted fairy to Alan as well in case he dies as the healer is one of the most important role in the party. All these suggestions were accepted. Alan wanted taking the healing potion for himself as the healer but after discussion it was decided that they should be shared to the whole team. Lastly, the chairman decided to give the enchanted apple to Ayoub the mage for a damage and speed boost. After that, the use of the apple was discussed.

The final distribution of equipment is decided to be: the last chance shield to the tank, the enchanted apple to Ayoub, and the enchanted fairy to Alan. The health potions will be shared equally among the team. The enchanted apple should be used as a last resort or in a strategic manner.

### **4. Any other business**

Final questions included concerns about other guilds potentially trying to attack the boss before or after the team had beaten the boss and the unknown loot of the boss as it is the team's first time fighting this particular boss. The chairman assured that the team would not be attacked because the meeting was secret.

## **Conclusion :**

The summary of the attack strategy is to follow two important steps: reduce the boss's mobility and then reduce its health while dealing with the minions. The equipment will be distributed according to the role of each person.

Next meeting : Friday, December 23<sup>rd</sup>, 2022.
